

CO₂ Recovery and Monetization

March 25, 2024

Paul Greene, GreeneTec, LLC

BIOGASZ

FREE ONLINE WEBINAR

Monetizing Tail Gas CO₂ from Digester Biogas RNG Projects

Section 45Q for carbon sequestration ITC
Industry quality standards and project economics
CO₂ Liquefaction Systems from tail gas
CO₂ to Synthetic Natural Gas (SNG) approaches

Paul Greene
HOST

Check out March's Episodes from a Dairy RNG field trip to visiting Ivys' factory in Montreal

BIOGAS^{TV}

Biogas Book

It's two things:

- A primer to AD Biogas RNG
- Featured Content
 - Voice to text interviews

Agenda

(All times Eastern)

1 pm Welcome

1:05 - Todd Taylor – Avisen Legal – Section 45Q

1:25 – Sam Rushing – Advanced Cryogenics- CO2 Business, CO2 Purity Specs

1:45 – Jafeth Bulsink – Bright Biomethane – CO2 Recovery System Technology

2:00 – Brad Petersen – NLC Energy – CO2 Recovery Business and Operations

2:15 – Mark Pastore – Electrochaea – CO2 to CH4 – Power to Gas - EMethane

2:30 - Wrap

CO₂ is New territory for the Biogas business

- Value of CO₂/ Market pricing
- CO₂ capture to reuse vs permanent sequestration
- CO₂ applications
 - Beverage
 - Dry ice blasting
 - Freezing
 - Water Treatment
 - Protein processing
- Competitive alternatives
 - Natural CO₂
 - Produced
- CO₂ quality and risks
- CO₂ to methane
- Power of the PTC
